Ongole, Andhra Pradesh | LinkedIn | GitHub | Portfolio

Career Summary

Full-stack developer with 8 months of internship experience building production-grade web applications using React, Node.js, Express, SQL, and MongoDB. Experienced in developing real-time features, secure authentication, dashboards, and scalable APIs. Strong in debugging, problem solving, and working in Agile teams. Motivated to take ownership of features end-to-end and contribute quickly as a full-stack or backend engineer.

Work Experience

SDE Intern | VECROS Technologies   Jun 2025 – Sep 2025
Full Stack Development

- Contributed to multiple projects, including SaaS platforms and an internal Accounts product.
- Delivered responsive dashboards and real-time UI components in React, connected with AWS Lambda APIs.
- Enhanced global state management using Redux and optimized component rendering.
- Debugged production issues related to data flow and UI behavior.

Junior Software Engineer Intern | TechVritti   Mar 2025 – Jun 2025
Full Stack Development

- Developed full-stack modules using React, Node.js, and SQL.
- Engineered secure authentication and role-based access control.
- Optimized backend performance by refining SQL queries and API logic.
- Improved 15+ full-stack modules following clean architecture.

Web Developer Intern | BasketHunt Pvt Ltd   Aug 2023 – Oct 2023
Frontend Development

- Refined frontend responsiveness across devices.
- Integrated 5+ REST APIs and resolved UI issues impacting 1,000+ users.
- Collaborated with team using Git and Agile practices.

Projects

CodeClash – Real-time Competitive Coding Platform

- Built a real-time platform with matchmaking, live coding rooms, and leaderboards.
- Designed backend REST APIs and modular service structure.
- Implemented WebSocket communication for real-time updates.
- Designed and Implemented 20+ authenticated backend APIs.
- **Tech stack:** React.js, Node.js, Express.js, MongoDB, WebSockets.

Smart Study Scheduler – Productivity & Tracking Platform

- Developed a productivity platform with task management, timers, and analytics dashboards.
- Built robust secure JWT-based authentication.
- Crafted database models for analytics.
- Crafted a responsive UI for seamless task workflows.
- **Tech stack:** React, Node.js, Express.js, MongoDB.

CuisineCreators – Recipe Sharing Platform

- Engineered a content-driven MERN platform for recipes, blogs, and videos.
- Created CRUD operations and media handling.
- Produced responsive card-based UI.
- **Tech stack:** MongoDB, Express.js, React, Node.js (MERN).

Technical Skills

Languages	Java, JavaScript, SQL, TypeScript
Frontend	React.js, Redux, Next.js, HTML, CSS, Tailwind CSS, Material UI
Backend	Node.js, Express.js
Databases	MongoDB, MySQL
Tools	Git, GitHub, Postman, VS Code
Other	REST APIs, JWT Authentication, WebSockets, Data Structures

Education

B.Tech in Computer Science and Engineering | RGUKT - Ongole   2022 – 2026
CGPA: 9.0

Pre-University Course (PUC) | RGUKT - Ongole   2021 – 2022
CGPA: 9.81

Certifications

MERN Stack Development – Masynctech Coding School (Udemy)
SQL (Intermediate & Advanced) – HackerRank

Soft Skills

Dedicated, Fast Learner, Time Management, Team Collaboration
